

CompTIA PenTest+

Duration: 40Hrs

Training Method: Online / Offline

COURSE MODULES

In the world of technology-inclined gadgets and devices, many anti-social elements can compromise the sensitive piece of information possessed in the datasets of these internet-based devices. As a result, we need a quality workforce that can genuinely take out all the shortcomings, loopholes, threats, or vulnerabilities that can sincerely mitigate security flaws with the right kinds of strategies, procedures, and protocols. In the same vein, Craw Security, the best penetration testing institute in Singapore, offers a world-class CompTIA PenTest+ Certification and Training Course in Singapore duly facilitated by numerous high-profile penetration testing professionals.

In the primetime facility of Craw Security in Singapore, many diversely trained and experienced faculty members are provided so that our learners train at a different level and develop a keen sense of understanding the distinguished knowledge quotient related to the fundamentals of CompTIA PenTest+ Course & Certification in Singapore.
